

Rule 24. General Provisions.

All prior administrative and procedural rules in effect in this court are repealed as of July 1, 2021. These rules are effective July 1, 2021, and shall govern all pending cases. If application of the new rules would not be feasible or would result in an injustice, the party affected may file a motion seeking to have the repealed rule apply. The court reserves the prerogative of departing from the procedures of this rule in an individual case, in its discretion and the interests of justice.
